A Little About Hair Extensions Of Houston

Hair Extensions of Houston is a full-service salon that specializes in providing expert hair extension maintenance, installation, coloring, and styling services. The salon uses an exclusive hair extension installation technique, called the original hair loc system, to install extensions without the use of heat, chemicals, glue, sewing, or braiding.

The founder, Brenda McLeod, is a licensed cosmetologist and has been in the hair care industry for more than 30 years. Under her leadership, the salon strives to provide natural-looking premium Russian hair extension to its clients.
Hair extensions and salon services is a booming industry due to growing demand from its customers. It is a competitive and saturated market where similar services are readily available. Consumer loyalty is fickle in this industry, and it is immensely challenging to develop a majority market share.

So, how was Hair Extensions of Houston going to make their mark in a competitive industry? By focusing on where their competition wasn’t—the internet!

How Much Is Too Much? Take Advantage Of Hair Oils To Regain Your Lustrous Hair

Applying oil to your hair as a restorative treatment may not really be a part of your usual hair routine — but it should be. It’s been part of ancient cultures as a way to hydrate and condition your scalp and locks and many people around the world swear by it. If you don’t know where to start, or how much to apply in what way; read on.

What Kind of Hair Oil Should I Use?

First of all, you need to know what kind of oil you should use. We recommend using natural plant-based oils such as almond, argan, coconut, avocado, and more. Finding the best oil for your hair often means trial and error. For example, you may find that while coconut oil works well for some people, it doesn’t suit your hair.

Without making things too difficult, here are two recommendations. For silky and fine hair, almond oil is a good way to balance out the moisture levels in your scalp and ends. On the other hand, curly hair may do better with heavier oil like argan; which will soak:

Going Gray: Embrace Your Inner Silver Fox in Your 20s

What could be more iconic than actress and Hollywood legend Jane Fonda striking out onto the Oscars stage to present the Best Picture award in a perfectly styled silver-gray pixie? Not much else can compete with her, but we can certainly try!

Gray hair emerged about five years ago as a trend initiated by top designers Chanel, Jean-Paul Gaultier, and Gareth Pugh. Not only did it give younger women a new look to try, it also helped older women find acceptability to mainstream fashion for their graying locks. However, there’s no harm in bringing some silver for women in their twenties.

Here’s what we think about how to make the transition:

Ask the Experts

First, you should get a consultation with your cosmetologist to see if your hair needs any maintenance before you bleach and dye them. It’s possible that your current hair might not be in the best shape. A trim or conditioning treatment may be in order.
